

Accelerated Underwriting Requirements for Xpress & Xpress Plus

What is Xpress?

An underwriting program that is used to process applications for insured's age 65 or under and applying for a face amount of \$249,999 or less that is designed to speed up the underwriting process to allow for quicker issues and faster turnarounds. Xpress is available for both paper and electronic applications.

No automatic exam is required. The need for an exam is determined based on answers to the application, MIB, RX, and Risk Classifier.¹ If an exam is required, the agent will receive a notification.

What is Xpress Plus?

Xpress Plus is an underwriting program that expedites the application process and saves your customers time and hassle by automating a portion of the underwriting process for applications submitted electronically.

When you submit an individual application that is within the parameters of the Xpress Plus program, exams are not automatically required. The need for an exam is determined based on answers to the application, MIB, Rx, and Risk Classifier. If an exam is required, you will be notified immediately via ExpertOffice.

When submitted through ExpertApp:

- If answers on the application prompt the need for an exam, the agent will receive a notification immediately in ExpertApp.
- If the MIB, Rx, and/or Risk Classifier prompt the need for an exam, the agent will receive a notification via ExpertOffice and email.

¹ The Risk Classifier utilizes characteristics derived from public records, driving history, and credit history.
