Market Value Adjustment

The Preserve and ProOption MYGAs contain a market value adjustment (MVA). It is applied when the contract is liquidated early or more than the penalty free amount is withdrawn. It is designed to share some of the investment risk between the contract holder and the company.

If interest rates in the market are **higher** than when the annuity was purchased, the adjustment may cause a **negative MVA**. If interest rates in the market are **lower** than when the annuity was purchased, the adjustment may cause a **positive MVA**.

**Please note: contracts issued in DE, WA, OR, PA, MO do not contain an MVA*

Non-Resident Sales

A non-resident sale is any transaction in which a customer purchases a life insurance or annuity contract outside of their primary resident state. These types of sales are being monitored very closely by regulators and having a customer cross the border to a neighboring state for the purpose of purchasing life insurance or an annuity is strictly prohibited. Some of the acceptable reasons for allowing non-resident sales include:

- A second home (i.e.: snow birds).
- Customer owns a business in the non-resident state.

Things to know:

- You must be licensed in the solicitation state. You must have a resident or non-resident license and be appointed with the company to do business in that state.
- We will not allow a non-resident sale, if the primary reason for the non-resident sale is to purchase a product that is not available in the customer's primary resident state.
- Currently, states such as Alabama, Massachusetts, Minnesota, Oregon, Utah, and Washington do not allow a non-resident sale if the product being solicited is not approved in the customer's primary resident state.
- Other state restrictions may exist. For example, when the client is a resident of the state of New York or New Jersey, we will not accept the business, regardless of the state where the application is being solicited.
- Please complete the Non-Resident Verification Form for all non-resident sales.
